2.4. Process payments with ease

- Cashier with permissions can apply custom discounts per item in cart

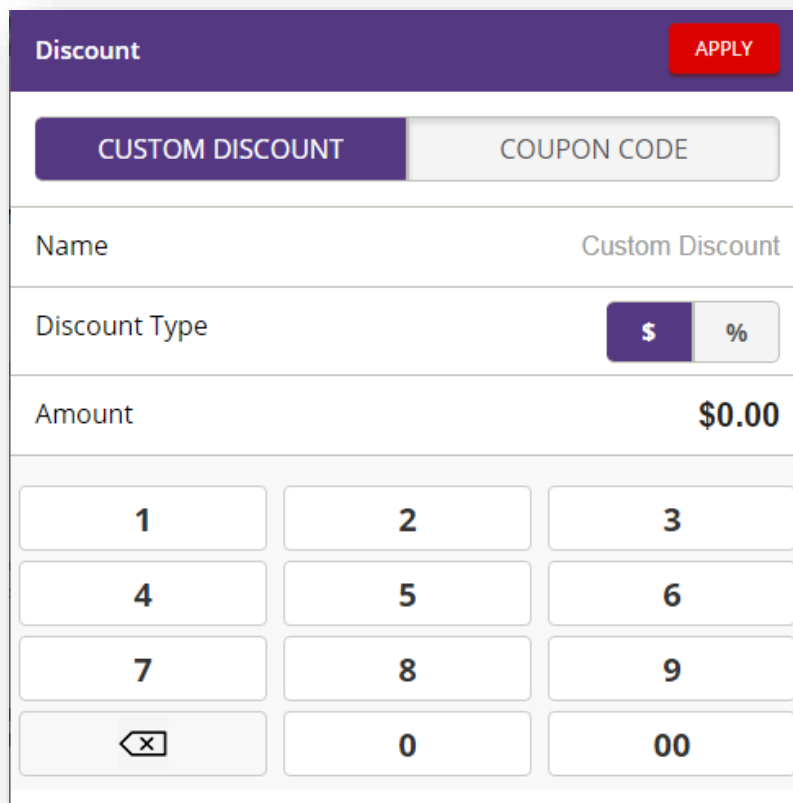

- All cashiers can apply coupon code on the whole cart

The screenshot shows a POS system cart interface. At the top, there is a purple header with a barcode icon on the left, the text 'Cart(0)' in the center, and a pencil icon on the right. Below the header is a white section with a person icon and the text 'Add Customer'. The main area is a table with a white background and a purple border. The table has two columns: the left column contains text labels and the right column contains numerical values. The first row is 'Subtotal' with a value of '\$0.00'. The second row is 'Add Cart Discount' with a plus sign icon in a circle to its right; this row is highlighted with a red border. The third row is 'Grand Total' with a value of '\$0.00'.

Cart(0)	
	
Subtotal	\$0.00
Add Cart Discount	
Grand Total	\$0.00

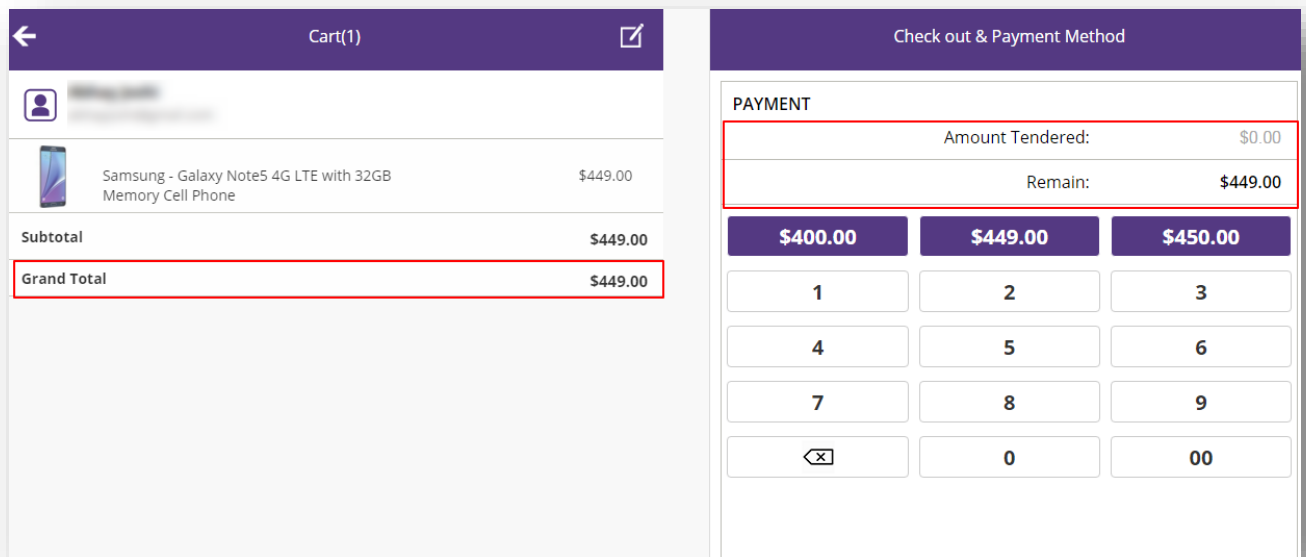

- Cashier with permissions can apply discounts by percent or fixed amount

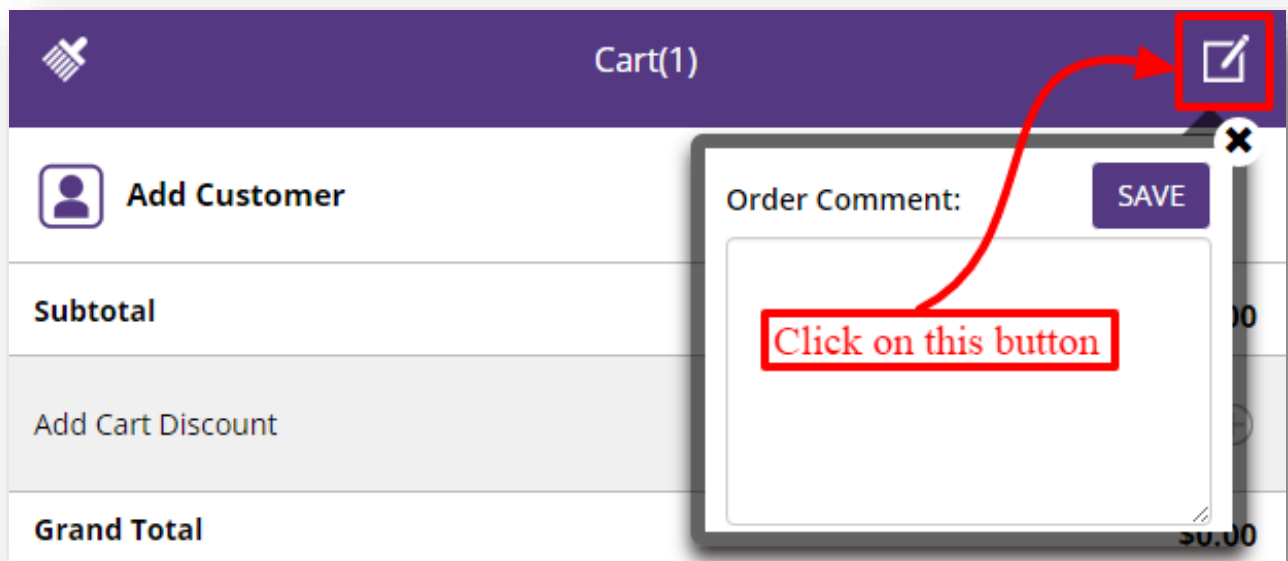

The screenshot shows a POS system discount application screen. At the top, there is a purple header with the text 'Discount' on the left and a red 'APPLY' button on the right. Below the header are two tabs: 'CUSTOM DISCOUNT' (selected) and 'COUPON CODE'. The main area is a form with several fields: 'Name' with the value 'Custom Discount', 'Discount Type' with a dropdown menu showing '\$' and '%' (the '\$' option is selected), and 'Amount' with the value '\$0.00'. Below the form is a numeric keypad with buttons for digits 1-9, 0, and a backspace button (represented by a left arrow and an 'x').

Discount		APPLY
CUSTOM DISCOUNT COUPON CODE		
Name	Custom Discount	
Discount Type	<input checked="" type="radio"/> \$ <input type="radio"/> %	
Amount	\$0.00	
1	2	3
4	5	6
7	8	9
	0	00

 - ✓ **Refund:** Allow refunding an order and refund would be happen with same payment method as they made payment. Also refund will only perform from Store Manager/Project Manager/Office Manager only.
 - ✓ **Reload:** This button will show only when any product would be in hold

2.10. Cash Drawer

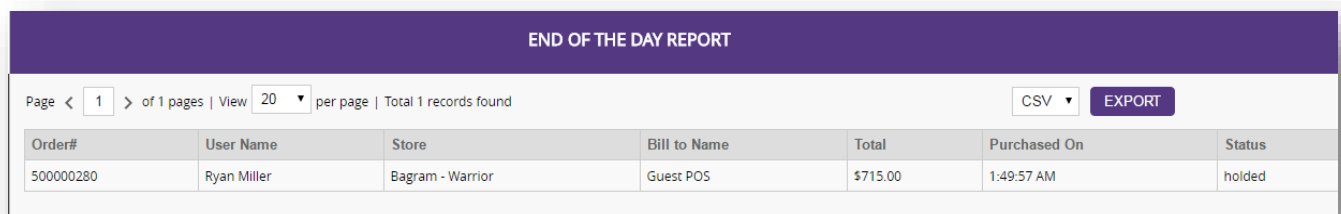

The screenshot shows a 'TRANSFER MONEY' window with a purple header. Below the header, there is a 'Manual Transfer' section with an input field for 'Amount of money', a dropdown menu set to 'In', and a 'TRANSFER' button. To the right, it displays 'Current Balance: \$0.00'. Below this is a table with columns: Date, In, Out, Balance, Order ID, User, Store, and Note. The table currently contains the text 'No records found.'

- It gives access to an overview of all cash transactions and is intended to be used for keeping track of the amount of cash coming in the cash drawer.
- All transactions that are paid by cash and all manual cash changes done by sales clerk will be stored in the report.
- The report is by default sorted with the latest reports first. It is possible to filter and sort the list for user, amount, and date/time.
- Cash drawer will open when a cash drawer button is pressed from the left panel.
- Cash drawer will open for cash payment methods only.

2.11. Reports

- End of the Day Report of the store is intended to support in counting the register at the end of the day.

The screenshot shows an 'END OF THE DAY REPORT' window with a purple header. Below the header, there is a navigation bar with 'Page < 1 > of 1 pages | View 20 per page | Total 1 records found' and buttons for 'CSV' and 'EXPORT'. Below this is a table with columns: Order#, User Name, Store, Bill to Name, Total, Purchased On, and Status.

Order#	User Name	Store	Bill to Name	Total	Purchased On	Status
500000280	Ryan Miller	Bagram - Warrior	Guest POS	\$715.00	1:49:57 AM	held

- The popup window for Close Stores displays sales per payment methods. It will include following list:
 - ✓ Cash (BVPOS Cash)
